# THE DAILY NEWS.

WEDNESDAY, MAY 1, 1874.

## NORTH CAROLINA.

Madison court was in session last week.

No white deaths in Wilmington last week.

Newbern still worries about its cotton factory.

The Mayor of Newbern has instituted a Rogues Gallery.

Col. A. A. McCoy delivered the memorial address in Wilmington.

Jno. L. Moore, a leading citizen of Shelby, died in that town last week.

J. C. Durham now sings in the local columns of the Cleveland Banner.

Six couples, three white and three colored, were spliced in Wilmington last week.

There were seven colored burials in Wilmington last week—two adults and five children.

The Lafayette Light Infantry of Fayetteville has a new uniform and ought to be happy.

The Radicals of Jones endorse King for Congress, Clarke for Judge and Mann for Solicitor.

Several more arrests on a charge of counterfeiting have been made in the Western part of the State.

Judging from accounts the Wilmington Postoffice building is going up more rapidly than ours.

The Radicals of New Hanover meet in pow-wow on the 6th of June, nominate county candidates.

Newbern had its memorial ceremonies on Saturday. Major Thomas Sparrow delivered the oration.

The merchants of Newbern closed their stores on Saturday, and those of Wilmington Monday, in honor of memorial day.

Wilmington has strawberries at from 25 to 40 cents per quart, and Newbern the same article at from 20 to 30 cents per quart.

Mr. J. K. Outlaw, of Duplin, declines to allow his name to be used for the House of Representatives in the last Legislature.

Simon Hayes hazed Jackson Sellers out of \$200 in Wilmington on Saturday, and now Hayes rooms the cellars of Wilmington jail.

A man named Ingram was drowned at the Long Shoals, on the French Broad River, while endeavoring to ford on Monday last week.

A youth from Jones county traveled to Newbern with two cows and calves the property of another man. That youth now sleeps in jail.

In Wilson the Rads endorse Stanton for first and Thomas as second choice for Congress, Faircloth for Judge and Moore for Solicitor.

The Conservatives of Cleveland held two County Conventions, wings operating, and we fear there will be many Richmonds in the field.

Meeklenburg county has declared for Hon. Thomas S. Ashe for Congress, Hon. W. M. Ship for Judge, and Col. John E. Brown for Solicitor.

Col. W. G. Morris has been nominated by the Conservatives to represent the Senatorial District of Gaston and Cleveland in the next Legislature.

The Mayor's Court fines in Newbern last year was \$167, the year before \$449.25 and the year before that \$-622.24. Newbern is going back on itself.

The Wilmington Journal says that work is being vigorously pushed forward on the Carolina Central road and that Monroe and Charlotte loom up in the near future.

The 23rd Regiment of Militia is to be organized in Wilmington with W. P. Canady as Colonel, to whom a commission has been tendered by Gov. Caldwell and accepted.

Isaac Bunn, who recently broke out of Rockingham jail, went burning around Bennettsville, S. C., improperly forcing his way into other peoples homes. He again sleeps in jail.

Says the Charlotte Democrat: "The Fair Ground property was sold at auction, under mortgage, on Friday last, to Dr. Jos. Graham for \$11,700. It is no fault of the citizens of Charlotte that the property has been sold under the hammer, for they have contributed liberally of their money to carry on and sustain a Fair. It is due to our citizens that we should say that much at least. We learn, however, that Dr. Graham represents a company of gentlemen who will use the Grounds for exhibitions of some sort or a Race Course."

The New Orleans Times of a late date thus partially sums up the losses that have been and will be sustained by the disastrous flood which has swept through Arkansas, Mississippi and Louisiana:

"Not until there has been a complete subsidence of the waters, can there be a full measurement of the damages sustained, but a survey of the vast plain of water which stretches from the border of Arkansas into the Gulf with an average width of say fifty miles, we may at least approximately estimate the calamity. Judging from our estimates on the best lights now before us, the loss, direct and consequential to the people of the State, must largely exceed

TEN MILLIONS OF DOLLARS.

When the flood shall have entirely passed away, and absolute facts are ascertained, the estimate stated may be largely increased, but cannot be diminished, and not until then will it be possible to determine what the individual suffering has been.

The estimates of damage are estimated at from 2,500,000 to 3,000,000 acres. The damage previously expended in the crops, the loss of fences, cattle, mules, poultry, and every variety of kind of chattel property, houses, damaged machinery, loss of food and clothing, the loss of prospective crops, also the loss of unemphered time until the sufferers can again find remunerative employment, the time and expense of restoring the wasted lands, fences and habitations, involving in all these estimates is a population fairly estimated at ONE HUNDRED AND TWENTY THOUSAND.

without considering the large commercial interests of New Orleans, which are to be affected by the overflow, not only for the present year, but until these damages can be repaired. We have desired to be re-assured in these calculations, and to obtain evidence on ascertained and appreciable facts, for in that way only will they have any value in the pub-

lic mind. Suppose we begin with the loss of the

## COTTON CROP.

In making these estimates concerning cotton, we consider the entire product of Louisiana, Arkansas and Mississippi. Should the flood subside by the middle of the present month, there would yet be time to obtain some recompense for the loss in this crop; but it is well known that late planting of cotton is never safe for any yield, and can not be counted on under the most favorable circumstances, for more than half a crop. Well informed planters, and good judges, with whom we have conversed, consider that there will be a loss of 250,000 bales of cotton on the crop of this year, even under the most favorable circumstances. Should the overflow continue longer than the fifteenth inst., the loss will be largely enhanced, and exceed 300,000 bales.

## THE SUGAR LOSS.

The loss in this commodity is almost total and absolute, not only for the present year, but will attend that industry for two more years besides the present. Cane cannot be restored to a productive capacity under three years, and its restoration will only be accomplished gradually. It will be fair to count in the loss not only for the present year but the consequential loss of succeeding years. The loss on this year's crop is variously estimated at from 20,000 to 40,000 hds., but we are persuaded that the former figures, 20,000 hds., are within the margin of certainty. That would be \$3,000,000. Next year 20,000 hds., \$2,000,000, and the year following that \$10,000,000, or \$30,000,000. The sugar loss then, directly and consequential, must be set down at \$6,000,000.

## THE RICE CROP.

Some overstrong estimates have been made of the loss in this crop, and we have endeavored to reach the indisputable conclusions. The rice crop of the State is written down in the statistics at 52,200 barrels of 230 pounds each. The producing parishes are: St. James 435 barrels, not overflooded; St. John 1,250 barrels, one-quarter overflooded, loss 315 barrels; St. Charles 5,492 barrels, loss one-fourth or 1,350 barrels; Jefferson 308 barrels, not overflooded; Orleans 117 barrels, not overflooded; Plaquemine 39,254 barrels, loss one-third or 10,855 barrels; Terrebonne 11,711 barrels, loss four-fifths or 9,312 barrels; Lafourche 1,224 barrels, loss two-thirds or 816 barrels; Vermilion 884 barrels, not overflooded; Lafayette 779 barrels, not overflooded. We have here a certain loss of 5,531,940 pounds, which, estimated at 6c, aggregates \$331,996.

This brings us to the consideration of the most difficult part of this subject, the loss of

## CHATEL PROPERTY.

such as cattle, mules, hogs, poultry, farming tools, and the like. Necessarily we are much at sea here, and however the objectionable it may be to present estimates with no better foundation than guessing, it is for the present all that is allowed us.

The population as above stated, involved in the overflow is about 120,000 people, white and black, employing from six to ten thousand plantations, large and small. The question is how much has such plantation lost by the flood in cattle, mules, hogs, and other chattel interests? It cannot be less than \$100 to each place, and there are many persons who would unhesitatingly write it down at \$200 to each place, and yet others who would write little less than \$100 to estimate the loss at double that amount. We prefer to take a moderate view and calculate from the basis of six thousand places at \$200 each, which would give a loss of \$1,200,000.

## THE MISSISSIPPI LEGISLATURE.

The Mississippi Legislature has passed an act requiring liquor dealers to obtain written consent of a majority of the men and women who are of age in the town where they propose to sell before license can be obtained.

A Washington letter says it is understood that either in the Senate or House a proposition will be made to re-enact the duty on tea and coffee, and apply the proceeds for the benefit of the centennial fund.

## DRY GOODS.

1874. SPRING GOODS. 1874.

J. P. GULLEY & BRO.

FAYETTEVILLE STREET.

## FERTILIZERS.

WHANN'S RAW BONE SUPER PHOSPHATE.

The unexampled success of this renowned manner during many years, has won for a reputation which few other fertilizers can claim. Its sales are very extensive in all parts of the country, especially in those parts of the South where cotton and corn are largely grown. So decided and positive have been its results on these important staples, that in many sections it is preferred to all other manures.

## Whann's Raw Bone Super Phosphate

prompt and active in its effects. It starts the young plant vigorously, and by furnishing a steady supply of nutriment during the period of its growth, brings the crop to a healthy maturity in time to escape the ravages of early frost.

We offer this well-known fertilizer to our friends, confident that they will concur in the opinion of the leading planters of the South, that for Cotton and Corn it is unequalled.

# TELEGRAPHIC NEWS.

## NOON DISPATCHES.

**From Little Rock—the Fighting Goes On—Col. White Wounded.**  
LITTLE ROCK, May 12.—Specials contain the following items: The regulars yesterday took all the arms at the arsenal to pieces to prevent either Brooks' or Baxter's people from using them.

The raft with arms from the river arrived safely.  
There was great excitement yesterday morning in Little Rock during the skirmish across the river. Col. White, of Baxter's force, was wounded in the leg. After the skirmish had lasted some two hours a company of regulars crossed the river and stopped both parties, releasing a train of cars which Baxter's men had just seized. Four of Baxter's men are reported killed. Two of Brooks' men are killed and two wounded.

The Clerk of the Circuit Court swore in the members of the Legislature.  
The regulars have thrown up another barricade across Markham street.  
Col. Rose has telegraphed to Gen. Sherman for a company of regular cavalry.

## Miscellaneous Items.

**DETROIT, May 12th.**—Rain checks the forest fires. No loss of life reported.

**CLEVELAND, May 12.**—The Bohemian Sewer Workers have struck and forced others to quit work. Several harmless shots were fired, and some hurt by bricks.

**BOSTON, May 12th.**—Rev. Dr. Marvin, managing editor of the *Daily News*, is dead.

**LONDON, May 12.**—The steamer reported lost is the *Liberia*, not the *Siberia*.

## FROM WASHINGTON.

**Arkansas Matters—Brooks refuses to accede to the President's terms.**

WASHINGTON, May 12.—A reply has been received from Brooks, of Arkansas, declining to accede to the terms proposed by the President through the Attorney General. The telegram will be a subject of cabinet consultation to-day, and it is very probable that the general government after having exerted its best influences for the preservation of peace and restoration of political harmony at Little Rock, will now decide definitely on the case, and that means will be taken to have its decision enforced against any opposition.

**Proposed Meeting of the Cotton Exchange in Augusta, Ga.—Cordial Invitation Extended.**

AUGUSTA, GA., May 12.—New Orleans Cotton Exchange having designated this city as a suitable place to hold a convention of delegates from cotton exchange of various States, the Augusta exchange has extended a cordial invitation to different cotton exchanges to send delegates to the meeting proposed to be held in this city on the third day of June.

## The Spanish War.

LONDON, May 12.—Special dispatch to the *Times* from Barcelona began his advance from Bilbao yesterday. The Carlists are retreating themselves in the mountain passes. Gen. Elio has issued decrees that all persons expressing dissent to the pretensions of Don Carlos will be shot.

**Falling Walls—Two Children Killed and One Lady Injured.**

BUFFALO, N. Y., May 12.—A three story brick wall fell killing two children and tearing an arm from a lady, accident attributed to a mason who knocked out a portion of the wall back wall to connect an adjoining building. Loss half million.

## MIDNIGHT DISPATCHES.

## FROM WASHINGTON.

**Congressional and Other Important News.**

WASHINGTON, May 12.—Secretary Robinson and Belknap and Gen. Sherman have gone to Harrisburg to exert over the exploits of the army of the Potomac.

**HOUSE.**—The Postoffice Committee have agreed upon a bill for the prepayment of papers and printed matter by the post.

**NOMINATIONS.**—Phillip Clayton, of Georgia, Consul to Calicut; Joseph C. Abbott, Collector of Claims for Wilmington, N. C.

Judge Lawrence, Chairman of the Committee on War Claims, who, as a sub-committee, has recently had under consideration the question as to whether the government could take without compensation, the property of citizens in the late rebellious States after August 20, 1865, when the war was proclaimed closed, and will report to the Committee to-morrow in the negative, and says that the government is in honor bound to pay for the use of any property appropriated by the military authorities without reference to the previous political status of the person whose property was thus seized.

The *Star* says that a dispatch has been received from Governor Brooks in response to the telegram from the present sent to him last night, declaring to accede to the terms proposed.

The telegram was the subject of some discussion at the cabinet meeting to-day, and it may be that the President will be called upon to decide definitely some time to-day in this contest. The refusal of Brooks to accede to the terms made by the President in the interests of peace will very likely lessen the communication with that party, and it appears very probable that the next advances from here may be sent to the United States forces at Little Rock containing the decision of the Government, and asking that all parties shall be made to respect it.

**SENATE.**—A bill authorizing Massachusetts to import and hold works of art for two years free of duty passed.

Scott introduced a bill supplementary to a bill incorporating the Texas and Pacific Railroad.

The Military Committee reported a bill for the better protection of the Texas frontier.

The Geneva Award passed. Insurance Companies have no share in the spoils.

**HOUSE.**—The House spent most of the day on a bill to amend the steamboat law.

A resolution to send a special committee to Arkansas was offered, but being objected to was not read.

There was a partial hearing of the Virginia Tobacco Committee, composed of W. P. Burwell, of Richmond, and Messrs. McGill and Williamson, of Petersburg, before the special Committee of Ways and

Means to-day asking that licorice, sugar, sweet oil and other essential ingredients of manufactured tobacco be allowed to enter their manufacture free of tariff under bond. Mr. Barwell advocated this on the ground that it would greatly increase the amount of foreign trade in manufactured tobacco, and while the Treasury might lose \$750,000 in the remission of these duties, he contended that it would more than double the export in this article, which would be the basis of a large importation, and which at the average rate of the tariff, \$5 per cent, would bring more than one million and two hundred thousand dollars back in the Treasury. A further hearing of the Virginia delegation will be before a fuller committee next week, when an opportunity will be given those opposed to the measure to be heard at the same time.

In the Senate to-day Clayton offered a bill for the appointment of a committee of three Senators to proceed to Arkansas and investigate the cause of the disturbances there. Laid over.

It is well known that the Administration was reluctant or indisposed to interfere by force of arms in the Arkansas troubles, and therefore sought to restore peace in that State by mild yet earnest appeals to the parties immediately interested. Baxter's proposition as to the adjournment of the Legislature called for yesterday until Brooks' adherents could be present, together with the conditions annexed, was so far and reasonable in the opinion of the President that the Attorney General informed him that interests required an immediate acceptance of it.

A remark was made in an executive quarter to-day that Brooks could not have seen the significance of the intimation of the rejection of the proposition has certainly damaged his cause in official circles, a fact which perhaps he will not realize. The government believes that the Legislature should assemble free from armed and all other menace or restraint from either side, and that the proposition of Baxter if it had been accepted by Brooks, would have opened the way for a peaceful solution of the pending questions. Final action on the part of the government will not be delayed for more than a day or two, when means will be employed to protect the people from the dangers in which they are now involved, without partiality toward either of the contending factions or the rival Governors by whom the feud was initiated.

The President to-night expressed himself with much earnestness against those stimulating bloodshed and throwing the entire State of Arkansas into anarchy, and he was equally earnest in saying that he would not delay much longer in coming to a decision in the premises.

## Miscellaneous Items.

PARIS, May 12.—There was a large fire last night in the hostile quarter. Several persons were burned to death and two hundred were made homeless.

CONSTANTINOPLE, May 12.—No abatement in the famine in Anatolia. Reports from all sections of the country are of the most doleful character. Many persons have starved.

WELLSBURY, W. VA., May 12.—The paper mill of Harvey & George was burned yesterday. Loss \$50,000.

LONDON, May 12.—A special dispatch from St. Petersburg to the *Pall Mall Gazette* says Grand Duke Nicholas, brother of the Czar, has been arrested, but on what charge it is not known. His house was searched by the police. There is great excitement in St. Petersburg in consequence of his arrest.

BAYONNE, May 12.—The Carlists claim the victory in the recent engagement between a body of Carlists under Don Alonsio and the force of the Republicans. They say 250 of the Republicans were killed, and 440 taken prisoners.

## FROM NEW YORK.

**Winding Up of the Samana Company.**

NEW YORK, May 12.—Application was made in the Supreme Court to-day for an order winding up the Samana Company, and appointing a receiver for the Company's property in this State. Decision reserved.

**Weather Probabilities.**

WASHINGTON, May 12.—For the South Atlantic and the southern portion the middle states generally cloudy and threatening weather with northeasterly to southeasterly winds. No decided change in temperature stationary to falling barometer and light rain on the coast.

**National Agricultural Congress.**

ATLANTA, May 12.—Gen. Jackson is the President of the National Agricultural Congress here. Owing to misconnection of delegates arriving slowly. The President's address will be delivered Thursday.

## MEDICAL.

**SIMMONS' LIVER REGULATOR.**

This unrivaled Medicine is warranted to cure all diseases of the liver or any injurious mineral substance, but is purely vegetable.
